We were having to sell Shadow because of financial difficulties and a lady with a man friend (check with Carol for details), came and rode my horse and told me what a wonderful home he would get a good home, loaded him on a red 3 horse stock trailer. Then she gave me a check. She told my daughter and I she would call us when she got home to let us know they made it there safe and sound; all along my daughter's eyes welling up with tears. She never called us. I called her to see how Shadow was doing, work number disconnected, home number disconnected. The check was no good. When filing my police report they checked the driver license number that she had written down and it wasn't good either. We didn't want to sell Shadow. It was heartbreaking and even more so now because we don't know where he is or if he has a good home. Can you help us find Shadow?
